

## DR. JAVARIA QAIZI

ASSOCIATE PROFESSOR

DEPARTMENT OF BIOTECHNOLOGY,  
QUAID-I-AZAM UNIVERSITY (QAU),  
45320, ISLAMABAD, PAKISTAN

web: <http://www.qau.edu.pk/profile.php?id=827011>

[https://www.researchgate.net/profile/javaria\\_qazi](https://www.researchgate.net/profile/javaria_qazi)

<https://orcid.org/0000-0001-7033-5816>

web of science ID: AGT-3246-2022

google scholar: public profile

## PROFILE

Over 20 years of research experience in Plant Biotechnology and Molecular Virology. Worked as a scientist for federally funded molecular biotechnology institute; (<http://nibge.org>) for 10 years and afterwards worked as a university teacher for 11 years. Founding member and team lead of Molecular virology and Epidemiology lab at the department of Biotechnology QAU. Published 45 papers, with 1273 citations and h-index 19 (google scholar). Supervised 37 M.Phil. and 3 PhD students and 5 M.Phil. and 4 PhD are in progress. Extensive administrative and office work experience.

## Ph.D. PLANT BIOTECHNOLOGY/VIROLOGY

### THESIS TITLE: GENETIC DISECTION OF BETA-C1 GENE

2005-2010

Beta-C1 gene is encoded on Cotton Leaf Curl Disease Virus associated satellite. Its functions, pathogenicity and interaction with plant hosts were investigated by genetic dissection of the gene and its transient and stable expression in model plants.

## EXPERIENCE

### UNIVERSITY TEACHER, GROUP LEAD

**VIROLOGY/EPIDEMOIOLOGY LAB, BIOTECHNOLOGY DEPARTMENT, QUAID-I-AZAM UNIVERSITY (QAU), ISLAMABAD, PAKISTAN**

2011-PRESENT

Experience includes teaching post/undergraduate courses, research supervision of M.Phil./PhD students, office work, administrative responsibilities. I joined QAU as Assistant professor (TTS) in 2011 and promoted to Associate professor in 2019. I have worked as member of Departmental Board of studies, Admission committee, Tenure committee, Faculty Board of Biological sciences and member sports committee of the university. I am in charge of Students affairs and library facilities at the department.

Founding member and group lead of a plant biotechnology and molecular virology/epidemiology lab.

Worked for 20 years in the area of diagnostic virology for detection of economically important single stranded plant DNA viruses, their transmission, characterization of insect vector and host-pathogen interactions.

As insects are vectors for plant virus transmission my lab has introduced modern methods for plant pests characterization. My lab is a pioneering lab in Pakistan for introducing modern insect barcoding systems and contributing to global barcode data of insects.

Additionally, I utilized my experience in molecular virology and training on spectroscopic techniques for the Diagnosis of human pathogenic viruses using unconventional approach making my lab one of the pioneering labs in the world in this area.

After COVID we are also working in collaboration on

Data mining employing computational strategies using Artificial intelligence for prediction of viral outbreaks and public behaviors.

**SERVICE RECORD**

2019-PRESENT

Associate Professor, Biotechnology, QAU, Islamabad

2011-2019

Assistant Professor, Biotechnology, QAU, Islamabad

2010-2011

Senior Scientist, NIBGE, Faisalabad

2007-2010

Junior Scientist, NIBGE, Faisalabad

2004-2007

Research Associate, NIBGE, Faisalabad

**EDUCATION**

2005-2010

Ph.D. Biotechnology, NIBGE, Faisalabad, Affiliation QAU

2002-2004

M.Phil. Biotechnology, NIBGE, Faisalabad, Affiliation QAU

1999-2001

M.Sc. Botany, University of Peshawar, Peshawar

1996-1998

B. Sc. Biology, Govt. College for Woman, Haripur, Affiliation University of Peshawar

**TEACHING**

Post graduate courses

Advances in Biotechnology

Diagnostic Virology

Modern Biotechnology: Principles and Applications

Undergraduate courses

Agriculture Biotechnology

Introduction to Biotechnology

Cell Biology

**SCIENTIST, AGRICULTURE BIOTECHNOLOGY DIVISION,  
NATIONAL INSTITUTE FOR BIOTECHNOLOGY AND  
GENETIC ENGINEERING, FAISALABAD, PAKISTAN**

2002-2011

M-Phil researcher 2002-2004, worked as a Research Associate 2004-2007, as Junior scientist 2007-2010 and then Senior scientist 2010-2011 for Molecular Virology and Epidemiology Lab of Agriculture Biotechnology Division. In the same duration completed Ph.D. with Dr. Rob W Briddon distinguished professor of John Innes Centre Norwich UK, working as foreign faculty for higher education commission, Pakistan. As scientist I worked on molecular characterization, gene function studies, deletion mutations, epidemiology and PCR based diagnosis of viruses, expert of creating pathogen derived resistance constructs, stable and transient transformation of host plants and tissue culture. Extensively worked as a trainer and supervised and designed research activities and worked on administrative positions including In-charge of ladies' hostel. Taught as faculty member of PIEAS (Pakistan Institute of Engineering and Applied Sciences) while my tenure at NIBGE.

**EXPERTISE**

**MOLECULAR BIOLOGY/GENETIC ENGINEERING**

PCR and its modifications, gene cloning, construct designing for disease resistance, DNA sequencing, DNA probes, DNA/protein electrophoresis, making of plant viral vectors and infectivity analysis. Plant and bacterial protein expression systems and protein purification. Microbiological techniques; culturing, preservation, transformation, plasmid isolation. Stable plant transformation of model and crop plants and field trial analysis.

**INSTRUMENTATION**

Extensive experience of working with all basic molecular biology equipment from autoclaves to ultracentrifuges and its maintenance. Trained to use Helios Gene Gun, ABI sequencers, Real Time PCR, Electron microscopy, Confocal microscopy, Scanning electron microscopy, Raman Spectroscopy and Fourier Transform Infrared Spectroscopy and sample preparation for these instruments.

**COMPUTATION**

Other than Microsoft applications experienced to use multiple bioinformatics tools for DNA/protein data analysis, phylogenetic analysis and Raman and FTIR, spectroscopic data analysis and presentation. Data mining and use artificial intelligence for prediction of viral outbreaks and public behaviors.
